## **Jindal Worldwide Limited**

Denim - Bottom Width Yarn Dyed Shirting - Home Textiles **"Late Shri Tarachandji Jindal"** Founder Chairman

He was a pillar of Strength and an inspiring leader with genuine qualities. "Jindal" has been shaped by moments of his inspiration, perseverance and courage. He visualized the growth of "Jindal" what it is today....

## Chairman's Communique.....

## Dear Stakeholders,

## "But there's a big difference between 'impossible' and 'hard to imagine' The first is about it; the second is about YOU !"

It is my honour and privilege to interact with you as the Chairman of the Board of Jindal Worldwide Limited and great pleasure to share with you the key highlights of the Company's performance during the Financial Year 2016-2017 in this Annual report.

On the 31st year of Excellence we are passionate towards not only building a sustainable and profitable business, but, also towards inclusive growth. The expansion of Jindal Group during the year 2016 observed a significant growth. In this challenging business environment, Jindal Worldwide Limited delivered a resilient performance in 2016-2017.

Your Company's performance during the Financial Year 2016-2017 has been fairly satisfactory and encouraging. The single biggest event that left its mark on each and every sector of the domestic economy was "demonetisation". Coming at a time when the economy was just beginning to look up, the Central Government's decision to demonetise almost 86% of the currency notes in circulation, caused severe cash shortage in the domestic economy, which prefers cash as the mode of payments, even today. This cash shortage led to a strain on the consumption demand and business activity of second half of the year. Implementation of GST will also bring few fundamental shifts in the textile and apparel retail market. Both these reforms are poised to create a positive effect in the economic & business climate of the country as it entails much higher degree of transparency & accountability.

Looking ahead to 2018, we will need to work even harder to execute these strategies in the face of uncertain economic conditions confronting our business.

As always, the Company strives to enhance its internal controls and governance standards as a matter of ethical responsibility to all its stakeholders and not merely as a regulatory requirement. Your Company worked on a plethora of activities towards development and welfare of the society in the areas of Health, Sanitation, Education, Skill Development and Livelihood Interventions to name a few. None of achievements would have been possible without the passion and commitment of our employees - our biggest asset.

I would like to take this opportunity to thank each and everyone who work with us across the value chain for their unstinting support and hard work in the service of our Company. I would also like to extend my deep gratitude to our Shareholders, Customers, Bankers, our invaluable Employees and all the Stakeholders for their commitment, continued trust and confidence reposed in the Company to pursue excellence and grow, year after year in our shared mission and objective of being again one of the best textile Company in the world and look forward to your continued support in this journey.

As I look ahead, I strongly believe that the best is yet to come.

Your's Sincerely,

Dr. Yamunadutt A. Agarwal Chairman

India has emerged as the fastest growing major economy in the world as per the Central Statistics Organisation (CSO) and International Monetary Fund (IMF). The Indian economy grown by 7.1 per cent in FY 2016-2017. As per the Economic Survey 2016-2017, the Indian economy should grow between 6.75 and 7.5 per cent in FY 2017-2018.

During the Financial Year 2016-17, the global economy continued its modest pace of growth at 3% amidst weak international trade, subdued industrial production and investment. It is expected to rise further to 3.4% in 2017 and 3.6% in 2018. While the global economies continued to witness slow growth during the current year, the Indian economy on a macro basis stayed fairly robust.

India has retained its position as the third largest startup base in the world with over 4,750 technology startups, with about 1,400 new start-ups being founded in 2016, according to a report by NASSCOM.

Over the last year, the government has made several efforts to revive the Indian economy. Numerous foreign companies are setting up their facilities in India on account of various government initiatives like Make in India and Digital India. Mr. Narendra Modi, Prime Minister of India, has launched the Make in India initiative with an aim to boost the manufacturing sector of Indian economy, to increase the purchasing power of an average Indian consumer, which would further boost demand, and hence spur development, in addition to benefiting investors. The Government of India, under the Make in India initiative, is trying to give boost to the contribution made by the manufacturing sector and aims to take it up to 25 per cent of the GDP from the current 17 per cent. Besides, the

Government has also come up with Digital India initiative, which focuses on three core components: creation of digital infrastructure, delivering services digitally and to increase the digital literacy.

India's unemployment rate has declined to 4.8 per cent in February 2017 compared to 9.5 per cent in August 2016, as a result of the Government's increased focus towards rural jobs and the Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA) scheme.

## DEMONITISATION- THE MAJOR REFORM OF 2016-2017:

The Government of India announced demonetisation of high denomination bank notes of  $\mathfrak{F}$  1000 and  $\mathfrak{F}$  500, with effect from 8<sup>th</sup> November, 2016, in order to eliminate black money and the growing menace of fake Indian currency notes, thereby creating opportunities for improvement in economic growth.

In what could be termed as the mother of all reforms, Hon'ble Prime Minister Shri Narendra Modi's demonetisation move will have far reaching implications. This is not to dispute that the transformative step has brought some hardship for the citizens, but those are temporary and will blow over soon. For the larger benefit of the nation, we the citizens can bear such hiccups with a smile. After all, this is how we as citizens can contribute in policy making and nation building.

Demonetisation has led to a significant push towards digital financial transactions, as well as improving the tax net. Steps have been taken to further digitise and streamline the economy, with initiatives such as Aadhar linked subsidy schemes, UPI and Startup India, which have improved transparency and reduced red tape.

The Management is pleased to inform that your Company has successfully passed this phase of demonetization due to effective planning, management and operations of the Company.

The passage of the Goods & Services Tax (GST) bill is a significant achievement and its implementation will have a positive impact on the economy. Goods and Services Tax (GST) is a landmark reform which will have a lasting impact on the economy and on businesses. Implementation of a well-designed GST model that applies to the widest possible base at a low rate can provide significant growth stimulus to the business and contribute to the Prime Minister's mission of 'Make in India'. Despite a slowdown in apparel exports and domestic market growth, the denim market in India is clocking a consistent CAGR of 15% – 18% per year. Denim is also witnessing the fastest growth rate as an apparel fabric. The current installed capacity of almost 1,200 million meters is expected to increase to 2,000 million meters in next three to four years owing to the huge demand for the fabric.

While India's share in the overall denim manufacturing capacities is around 10%, at present its share in the global jeans trade works out to 2.5%. According to industry estimates, a CAGR of 10% over the period of next 10 years for denim share in international trade is possible.

#### Future Prospects

The future for the Indian textile industry looks promising, both by strong domestic consumption as well as export demand. With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth in the past decade with the entry of several international players like Marks & Spencer, Guess and Next into the Indian market. The Government is soon to announce its ambitious target of achieving 20% share of the global textile trade and helping the domestic industry attain a size of \$650 billion by 2024-25. The target can be achieved with a strong focus on investments, better labour law reforms, and skill enhancement.

With the government taking so many steps to boost the nation's textile sector, its benefits are likely percolate to the Indian denim industry in the coming years and ensure its steady growth which will be further fuelled by the various demand drivers for this sector in India.

## D. SWOT ANALYSIS:

#### Strength and Weakness :

Indian textile industry is as old as the word textile itself. This industry holds a significant position in India by providing the most basic need of Indians. Starting from the procurement of raw materials to the final production stage of the actual textile, the Indian textile industry works on an independent basis.

In addition to availability of large labor force with required skills at a comparatively cheap rate, Indian Textile Industry has a great advantage in that India is the third largest cotton producing country in the World. Moreover, India has the largest area under cotton in the world. The Indian textile industry is autonomous and self-governing.. Cheap labour and strong entrepreneurial skills have always been the backbone of the Indian Apparel and textile Industry.

The Ministry of Textiles under the Government of India has taken some significant steps to promote the textile industry in the Country. Technology Up-gradation Fund Scheme aims at making available funds to the domestic textile industry for technology up-gradation and setting up for new units. This scheme aims to generate 11.5% annual growth in volume terms in cloth production and 15% in value exports by increasing domestic value addition and technology depth and enhancing global competitiveness. The Indian Government has come up with a number of exports promotion policies for the textile sector.

However, one of the biggest weakness of the Textile industry is its old machines, spinning sector lacks modernization and there is a need of introducing new technology and also India has relatively less number of shuttle-less loom.

While the global textile industry is advancing technologically, local textile industry still relied on import of second hand textile machineries Moreover; huge tariff barriers are faced by the Industry on account of preferential tariff arrangements.

#### **Opportunities and Threats :**

India has the potential to double its market size in the long run as China is losing its competitive advantage in textiles mainly on account of increasing labour & power costs, and focus on the domestic market with high value products. The shift from China to India is expected to happen in the long run, to make India a dependable source of supply for the World.

The present Indian Textile and Apparel industry may grow from current level of US\$ 78Bn to US\$ 220 by 2020. India has its own strengths in terms of technical manpower availability, wide fiber base and supporting government policies for modernization and also raw material cost controls. The growing population of Indian young purchasing class is making domestic market quite lucrative.

Coupled with that, Chinese internal demand is expected to grow and there is predication that there will be some gap between their capacity to supply to the International market vis--vis internal demand. The 10% of spill over in such case from Chinese share is expected to give India another US \$50Bn market.

Beyond day to day use of textiles in home furnishing, apparels etc, a new segments of Technical Textiles is opening up and the growth of such textiles in sports, industry, buildings, defense, protection, agriculture, non woven's, and composite is increasing at highest rate in the emerging economies such as that of India and China.

However, the purchasing power of the Indian consumer is not at par with global standards and a large Section of the market is price sensitive. Achieving growth without adequate capital and offering products at an affordable price have led to financial stress and exit of several domestic and international brands. This is a significant challenge for the growth of industry and can be addressed through cost control, prudent inventory management and enhancing equity capital in the business.

During the year under review; the new tax regime i.e GST has messed up the Textiles Industry. Strikes in Surat and Ahmedabad, key centres of textile industry in the country, had crippled the industry, which is second largest employment generator after agriculture.

Though the industry is hopeful of adjusting to the new tax regime, it is more concerned about the bigger threat of imports becoming cheaper under GST (Goods and Services Tax) regime.

"There is threat of substantial increase in import of fabric from China as imports have become cheaper by 6% to 8% (Source Economic Times)

Production costs will come down in the long run as GST allows manufacturers to claim credit for all the taxes paid on inputs across the value chain. Bringing sectors of the economy that are excluded from GST under the new levy will also give the leeway to reduce rates.

## E. RISK AND CONCERN:

Risk is an inherent part of any business. The US dollar has strengthened continuously against the Indian Rupee and other currencies, due to the turmoil in the China market and recession in the European market. Due to a demand recession across the globe, increasing prices in Indian markets has become extremely difficult. The input costs are continuously increasing without commensurate increase in selling prices. Changes in China's Textile Policy severely affected the country's export to that country.

There are various types of risks that threaten the existence of a Company like Strategic Risk, Business Risk, Finance Risk, Foreign Exchange Risk Environment Risk, Personnel Risk, Operational Risk, Reputation Risk, Regulatory Risk, Technology Risk, Political Risk, etc.

With rapid urbanization in the close vicinity of the plant, the unit would be compelled to invest more on environment protection systems and practices, leading to a possible increase in the cost of production.

Your Company aims at enhancing and maximizing shareholders value by achieving appropriate trade-off between risk & returns.

# ANNEXURE(" B") TO INDEPENDENT AUDITORS' REPORT

# Referred to in paragraph 2(f) of the Independent Auditors' Report of even date to the members of Jindal Worldwide Ltd.on the standalone financial statements for the year ended 31<sup>st</sup> March, 2017.

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Act

We have audited the internal financial controls over financial reporting of Jindal Worldwide Ltd.("the Company") as of 31<sup>st</sup> March,2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

#### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal

financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies

and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

\*\* This is only optional. Please put a 'X' in the appropriate column against the resolutions indicated in the Box. If you leave the 'For' or 'Against' column blank against any or all the resolutions, your Proxy will be entitled to vote in the manner as he/she thinks appropriate.
 Appointing a proxy does not prevent a member from attending the meeting in person if he so wishes.

In the case of jointholders, the signature of any one holder will be sufficient, but names of all the jointholders should be stated.
